ABOUT ORGANIZER

The Chintamani College of Science, located in Pombhurna, Chandarpur District, and overseen by the Chintamani Education Society in Ballarpur, was founded in 2008 under the inspiration of Late Shri. Vasantrao L. Dontulwar. Its primary objective is to promote and enhance the foundations of basic science education in rural and tribal areas. Affiliated with Gondwana University, Gadchiroli, the college has earned a 'B' Grade accreditation from NAAC with a CGPA of 2.36. Offering undergraduate and postgraduate programs in the field of science and technology, the institution is committed to excellence in education. Its extensive campus, well-maintained premises, spacious playground, and a library with an extensive book collection contribute to this goal. The college has a track record of student achievements in sports and cultural events at both the university and national levels. With a highly qualified staff, modern audio-visual facilities, a dedicated student facilities center, science laboratories, and a well-equipped computer lab, the college is well-prepared to achieve its mission. It also operates various committees like the Internal Quality Assurance Cell, Career Guidance Cell, Women's Cell, Science Education Society, Alumni Association, and National Social Services to further its mission.

ABOUT INTERNATIONAL CONFERENCE

Basic sciences, with their focus on fundamental scientific knowledge, empower us to discover innovative solutions and address potential future challenges. Developing expertise in basic science hinges on exceptional education at all levels and the presence of top-notch universities and research centers. Basic sciences play a crucial role in implementing this program. The conference's agenda encompasses key topics such as the significance of basic sciences in sustainable development, their applications and innovations in medicine, engineering, technology, mathematics, and physics. It also covers advanced research in chemistry and biology, interdisciplinary basic research, healthcare, water and food security, as well as their applications in engineering and technology.
